Our Values are Great and Our Merchandise Right

The giving of greater values than can be attained anywhere else is the principle of our selling out sale this spring. We are going to make a change in our business in a very short time.

You may not be interested in this, but the extraordinary values we are putting in Saturday to turn our stock into ready cash should more than interest all economical buyers of Spring Clothing, Shoes, Furnishing Goods for men and boys ready to wear, and everything is new and up-to-date, 1910.

It is only by comparison that you can tell and judge values after, so don't be bashful to come in and get our prices before buying. Compare it with others and be your own judge, we'll guarantee the rest. See our large window display for Saturday. All goods shown with pleasure.

A Storekeeper Says:

"A lady came into my store lately and said:

"'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a

comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were aston-iabed. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost." The lady who said this had thought

an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired not that you can't eat loss light a Perfection Stove and immediately the heat from an intense blue flame aboots up to the bottom of pot, bettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
